# CANADIAN AERONAUTICAL JOURNAL

## Index to Volume 3

A	PAGE		PAGE
AC Power Systems, Developments for: F. W. Lowry and E. W. Hugert . . . . .	284	Radio Telemetry—M. H. Nichols and L. L. Rauch	70
Adhesive Bonding of Magnesium - Incorporating a Corrosion Resistant Hot Alkaline Chromate Treatment as the Surface Preparation: R. J. E. Hunter . . . . .	161	Rotorcraft—R. N. Liptrot and J. D. Woods . . .	144
Aeromedical Problems in High Performance Aircraft, Specific: R. A. Stubbs . . . . .	216	Stress Corrosion Cracking and Embrittlement—W. D. Robertson . . . . .	302
Air Traffic Control, The Airport and Airways Surveillance Radar for Canadian: B. I. McCaffrey . . .	72	Wing Theory—A. Robinson and J. A. Laurmann . .	70
Air Transport, Electronic Data Processing in: L. Richardson . . . . .	56	Bylaws, Amendment of the . . . . .	304
Aircraft, A Canadian Look at VTOL Transport: E. E. McCullough and P. J. Pocock . . . . .	185, 189		
Aircraft, A Method of Recording and Measuring Limits of Visibility from Cockpits of Civil: P. J. Foley, K. B. Jackson and D. O. Blake . . .	310	C	
Aircraft, Flight Testing of High-Speed: C. E. Myers, Jr. . . . .	44	C.A.I. Log . . . . .	21, 59, 101, 131, 167, 204, 233, 297, 325, 359
Aircraft Gas Turbine Ice Prevention - The Design and Development of Hot Air Surface Heated Systems: C. K. Rush and D. Quan . . . . .	318	Campbell, D. N.: The Saskatchewan Air Ambulance, Technical and Otherwise . . . . .	195
Aircraft, Specific Aeromedical Problems in High Performance: R. A. Stubbs . . . . .	216	Campbell, R. O. and S. C. M. Ambler: Trends in Lubrication . . . . .	305
Aircraft, Stability and Control Problems Associated with Supersonic: O. E. Michaelsen . . . . .	146, 178	Canadian Look at VTOL Transport Aircraft, A: E. E. McCullough and P. J. Pocock . . . . .	185, 189
Aircraft, Supersonic Passenger-Carrying: B. S. Shenstone . . . . .	13	Chinks in our First Line of Defence: S. H. Deeks . .	108
Aircraft, The Servicing and Maintenance of Commercial: R. J. Proctor . . . . .	220	Civil Turbine Operation, The Economics of: G. R. McGregor . . . . .	332
Airport and Airways Surveillance Radar for Canadian Air Traffic Control, The: B. I. McCaffrey . . .	72	Combustion, Screeching: H. Wisniowski . . . . .	36
Ambler, S. C. M. and R. O. Campbell: Trends in Lubrication . . . . .	305	Commercial Aircraft, The Servicing and Maintenance of: R. J. Proctor . . . . .	220
Ambulance, Technical and Otherwise, The Saskatchewan Air: D. N. Campbell . . . . .	195	Computing for Engineering Calculations, An Introduction to Automatic Electronic: B. J. Kaganov . .	155
Amendment of the Bylaws . . . . .	304	Consoles and Voice Communication Systems for Aerodrome Control Towers, Design of: K. K. Neely, R. E. F. Lewis and W. D. MacNamara . . . . .	17
Application of Ultra High Tensile Steel to the Design of a Modern Undercarriage, The: G. F. W. McCaffrey . . . . .	263	Control Problems Associated with Supersonic Aircraft, Stability and: O. E. Michaelsen . . . . .	146, 178
		Crompton, V. E.: The Birth and Evolution of the Gas Turbine (Letter on) . . . . .	203
B			
Baldwin Award, F. W. (Casey) . . . . .	112	D	
Birth and Evolution of the Gas Turbine, The: V. E. Crompton (Letter on) . . . . .	203	Data Processing in Air Transport, Electronic: L. Richardson . . . . .	56
Blake, D. O., P. J. Foley and K. B. Jackson: A Method of Recording and Measuring Limits of Visibility from Cockpits of Civil Aircraft . . . . .	310	Deeks, S. H.: Chinks in our First Line of Defence . .	108
Block, M.: Operational Use of Tacan . . . . .	152	Design of a Modern Undercarriage, The Application of Ultra High Tensile Steel to the: G. F. W. McCaffrey . . . . .	263
Bonding of Magnesium, Adhesive: R. J. E. Hunter . .	161	Design of Consoles and Voice Communication Systems for Aerodrome Control Towers: K. K. Neely, R. E. F. Lewis and W. D. MacNamara . . . . .	17
Book Reviews:		Development, RCAF Test and: O. B. Philp . . . . .	83
Elements of Gasdynamics—H. W. Liepmann and A. Roshko . . . . .	144	Developments for AC Power Systems: F. W. Lowry and E. W. Hugert . . . . .	284
Interavia ABC, Directory of World Aviation, Fifth Edition . . . . .	301		
Introduction to Junction Transistor Theory, An—R. D. Middlebrook . . . . .	302	E	
Modern Airmanship—N. D. Van Sickle . . . . .	302	Economics of Civil Turbine Operation, The: G. R. McGregor . . . . .	332
Molecular Flow of Gases—G. N. Patterson . . . .	144	Editorial: . . . . .	145
Principles of the Control and Stability of Aircraft, The—W. J. Duncan . . . . .	70	Help Wanted . . . . .	145
		International Geophysical Year: D. N. Kendall . . .	1
		One Man's Meat can be Everybody's Meeting: R. B. McIntyre . . . . .	107, 203
		President's Message, The: H. R. Footitt . . . . .	209
		Russian Satellite, The: P. A. Forsyth . . . . .	303
		Specialist Sections: D. H. Rogers . . . . .	331
		Technologist, The: W. A. B. Saunders . . . . .	71
		Time to Spare . . . . .	35
		To Provide for the Common Defense: S. P. Johnston	261
		VTOL: We Need It . . . . .	177, 232

	PAGE
Education and Training (Letters on) . . . . .	358
Electronic Computing for Engineering Calculations, An Introduction to Automatic: B. J. Kaganov . . . . .	155
Electronic Data Processing in Air Transport: L. Richardson . . . . .	56
Electronic Equipment, A Survey of the Advantages of Transistors in Airborne: E. F. Johnson . . . . .	124, 201
Electronic Equipment in Aircraft and Weapon Sys- tems, Reliability Control of: C. I. Soucy . . . . .	222
Evaluating Jet-Propulsion-System Components in Terms of Missile Performance, A Method of: R. W. Luidens and R. J. Weber . . . . .	96
<b>F</b>	
First Line of Defence, Chinks in our: S. H. Deeks . . . . .	108
Flight Testing of High-Speed Aircraft: C. E. Myers, Jr. . . . .	44
Foley, P. J., K. B. Jackson and D. O. Blake: A Method of Recording and Measuring Limits of Visibility from Cockpits of Civil Aircraft . . . . .	310
F. W. (Casey) Baldwin Award . . . . .	112
<b>G</b>	
Gas Turbine Ice Prevention, Aircraft: C. K. Rush and D. Quan . . . . .	318
Gas Turbine, The Birth and Evolution of the: V. E. Crompton (Letter on) . . . . .	203
Guided Missile as a Systems Engineering Problem, The: S. Ramo . . . . .	3, 37
Guided Missiles and Its Effect on Industry, The Technology of: R. D. Richmond and J. F. Perrier . . . . .	113
<b>H</b>	
Helicopter Icing, Some Aspects of: J. R. Stallabrass . . . . .	273
High Performance Aircraft, Specific Aeromedical Problems in: R. A. Stubbs . . . . .	216
High-Speed Aircraft, Flight Testing of: C. E. Myers, Jr. . . . .	44
High Strength Nickel-Chromium Alloys for Elevated Temperature Service: K. B. Young . . . . .	287
Huget, E. W. and F. W. Lowry: Developments for AC Power Systems . . . . .	284
Hunter, R. J. E.: Adhesive Bonding of Magnesium— Incorporating a Corrosion Resistant Hot Alkaline Chromate Treatment as the Surface Preparation . . . . .	161
<b>I</b>	
Ice Prevention, Aircraft Gas Turbine: C. K. Rush and D. Quan . . . . .	318
Ice Prevention in a Cloud of Ice Crystals: C. K. Rush . . . . .	121
Icing, Some Aspects of Helicopter: J. R. Stallabrass . . . . .	273
Introduction to Automatic Electronic Computing for Engineering Calculations, An: B. J. Kanagov . . . . .	155
<b>J</b>	
Jackson, K. B., D. O. Blake and P. J. Foley: A Method of Recording and Measuring Limits of Visibility from the Cockpits of Civil Aircraft . . . . .	310
Jet-Propulsion-System Components, A Method of Evaluating: R. W. Luidens and R. J. Weber . . . . .	96
Johnson, E. F.: A Survey of the Advantages of Tran- sistors in Airborne Electronic Equipment . . . . .	124, 201
Jones, E. T.: The Lesser Lights . . . . .	211
<b>K</b>	
Kaganov, B. J.: An Introduction to Automatic Elec- tronic Computing for Engineering Calculations . . . . .	155
Kosko, E.: The Numerical Determination of Transient Temperatures in Wings . . . . .	87

	PAGE
<b>L</b>	
Landing Gear Mounted on the Wing, Vibrations and Dynamic Landing Loads of Main: E. Mucha . . . . .	48
Law, When is an Aircraft a Nuisance in the Eyes of the: A. R. Paterson . . . . .	336
Lesser Lights, The: E. T. Jones . . . . .	211
Lewis, R. E. F., W. D. MacNamara and K. K. Neely: Design of Consoles and Voice Communication Systems for Aerodrome Control Towers . . . . .	17
Lowry, F. W. and E. W. Huget: Developments for AC Power Systems . . . . .	284
Lubrication, Trends in: R. O. Campbell and S. C. M. Ambler . . . . .	305
Luidens, R. W. and R. J. Weber: A Method for Eval- uating Jet-Propulsion-System Components in Terms of Missile Performance . . . . .	96
<b>M</b>	
MacNamara, W. D., K. K. Neely and R. E. F. Lewis: Design of Consoles and Voice Communication Systems for Aerodrome Control Towers . . . . .	17
Magnesium, Adhesive Bonding of: R. J. E. Hunter . . . . .	161
Maintenance of Commercial Aircraft, The Servicing and: R. J. Proctor . . . . .	220
McCaffrey, B. I.: The Aircraft and Airways Surveil- lance Radar for Canadian Air Traffic Control . . . . .	72
McCaffrey, G. F. W.: The Application of Ultra High Tensile Steel to the Design of a Modern Under- carriage . . . . .	263
McCullough, E. E. and P. J. Pocock: A Canadian Look at VTOL Transport Aircraft . . . . .	185, (189)
McGregor, G. R.: The Economics of Civil Turbine Operation . . . . .	332
Method for Evaluating Jet-Propulsion-System Com- ponents in Terms of Missile Performance, A.: R. W. Luidens and R. J. Weber . . . . .	96
Method of Predicting the Airborne Part of the Take- off Distance of an Aircraft, A: R. B. Tamboli . . . . .	10
Method of Recording and Measuring Limits of Visi- bility from Cockpits of Civil Aircraft, A: P. J. Foley, K. B. Jackson and D. O. Blake . . . . .	310
Michaelsen, O. E.: Stability and Control Problems Associated with Supersonic Aircraft . . . . .	146, 178
Missile as a Systems Engineering Problem, The Guided: S. Ramo . . . . .	3, 37
Missile Performance, A Method for Evaluating Jet- Propulsion-System Components in Terms of: R. W. Luidens and R. J. Weber . . . . .	96
Missiles, The Technology of Guided: R. D. Richmond and J. F. Perrier . . . . .	113
Mucha, E.: Vibrations and Dynamic Landing Loads of Main Landing Gear Mounted on the Wing . . . . .	48
Myers, Jr., C. E.: Flight Testing of High-Speed Air- craft . . . . .	44
<b>N</b>	
Neely, K. K.: Noise—Some Implications for Aviation . . . . .	312
Neely, K. K., R. E. F. Lewis and W. D. MacNamara: Design of Consoles and Voice Communication Systems for Aerodrome Control Towers . . . . .	17
Nickel-Chromium Alloys for Elevated Temperature Service, High Strength: K. B. Young . . . . .	287
Noise Research in the United Kingdom: E. J. Richards . . . . .	341
Noise—Some Implications for Aviation: K. K. Neely . . . . .	312
Nuisance in the Eyes of the Law, When is an Aireraft a: A. R. Paterson . . . . .	336
Numerical Determination of Transient Temperatures in Wings, The: E. Kosko . . . . .	87
